Description

LAS HAYAS

In the higher areas of Icod de los Vinos, this route starts at the Las Hayas recreational area. This area has designated spaces where you can take a break, relax and enjoy the surroundings before continuing the route. At around 1,000 metres above sea level, the route enters the Corona Forestal, passing through extensive pine forests and volcanic landscapes.

Along the route, you will cross a landscape of extensive slopes covered with Canary Island pine, together with faya, heather and holly, among other species typical of the Canarian woodland. The route invites you to enjoy the peace and quiet of the forest, while magnificent views of Mount Teide and the Atlantic Ocean appear through the vegetation.

The route follows mainly forest tracks and is suitable for both walking and mountain biking (MTB).

Equipment:

- Use appropriate equipment, footwear and clothing according to the route and weather conditions. For routes with greater difficulty or steep slopes, trekking poles are recommended.

Safety Tips:

- Always follow the suggested route. Do not enter private property, hunting areas, water galleries, wells or caves.
- Take extra care when walking along or crossing roads used by cyclists, horses or motor vehicles, as well as when walking through ravines with flowing water.
- Avoid direct contact with potentially dangerous animals, such as livestock, beehives or dogs.
- Walk carefully to avoid accidents and falls caused by obstacles, loose rocks, uneven ground or steep slopes.
- Check the weather forecast before planning your route.
- In case of emergency, call 112.

Please note: There is no mobile phone coverage along this route.
