Description

LAS HAYAS

This route starts at the Las Hayas recreational area and takes you into the Corona Forestal, in the higher areas of Icod de los Vinos, through extensive pine forests and typical Canarian woodland vegetation. The route passes through El Lagar and continues along Camino de Los Hornos, named after the old 18th-century pitch ovens.

The volcanic landscape is present throughout much of the route and blends with extensive woodland of Canary Island pines, holly trees, faya and heather, creating a peaceful setting surrounded by nature. Along the way, the forest opens up to spectacular views of Mount Teide and the Atlantic Ocean, offering some of the most beautiful panoramas of the route.
